Hung Jury in Arbuckle Case

After 41 hours of deliberation the seven men and five women on the jury which tried Roscoe C. Arbuckle on a charge of manslaughter in connection with the death of Virginia Rappe, were discharged Sunday after they were unable to agree upon a verdict.

The jury was brought into court at its own request at noon, reported a disagreement and asked that it be discharged. The foreman announced that the final ballot stood ten to two, but did not say whether the majority favored conviction or acquittal.

Court officers said, however, that the balloting favored acquittal throughout. The case was set for retrial January 9.

August Fritze, foreman of the Arbuckle jury, issued a signed statement saying that one of the women jurors, who was in the minority, refused to consider the evidence from the beginning and declared that "she would cast her ballot for conviction and would not change it until hell froze over."

"AFFAIRS OF ANATOL"

"The Affairs of Anatol" at the Tabb last night proved to be one of the finest features Paramount has ever offered. N. M. Dixon, a special representative for Paramount, came here in person and arranged for the current showing of the picture. Mr. Dixon is Paramount's special New York exploitation manager and while here he was enthusiastic about the big reception that he felt Mt. Sterling would give the picture and said he looked for not less than one thousand paid admissions for the opening day, but strange to say, "The Affairs of Anatol" receipts yesterday did not equal the cost of the advertising of the film. On going to press we were unable to learn just what bearing this failure will have on other Paramounts bookings.

FIRE EXTINGUISHERS FOR CITY SCHOOLS

At a meeting of the school board last night it was decided to place fire extinguishers in the halls of the city school buildings and to inaugurate a system of fire drills. The meeting was attended by a representative from each of Mt. Sterling's women's clubs and the matter of safety for the children attending our schools was discussed at length. From the many exits it was demonstrated that the building could be vacated in a little over a minute and a half and the addition of fire escapes was decided to be unnecessary.

WHICH

Newspaper advertising—regular advertising—is a vital part of the sales effort of aggressive, optimistic firms. For business enterprises in which such an advertising policy prevails, the outlook is all ways rosy.

SALE OF REAL ESTATE

Ben Copher has sold through the F. D. Richardson real estate agency a residence on Strother street to George Tipton for \$1,500. LAW ENFORCEMENT MEETING

A community mass meeting in the interest of law enforcement and world uplift will be held in the Methodist church Wednesday night, December 14. Hon. George M. Hammond, widely known as an orator, will be the principal speaker. He is a large, big-hearted, wholesome man. As a speaker he is exceptionally forceful. His voice fills any hall and is very penetrating. He is a restful speaker to listen to. His delivery is easy and natural. His logic is so intermingled with sentiment and so thoroughly surcharged with the magnetism of his own personality that he never fails to sweep everything before him.

Mr. Hammond's theme will be, "The Challenge of the Times." This address will be a real treat and a large crowd is expected to be present to hear our honored guest.

Al G. Field Minstrels At the Tabb Theatre

W. H. Bedwards, business manager of the Al G. Field Greater Minstrels, arrived in town this morning, arranging for the date of this big stellar attraction, which will be at the Tabb Wednesday, December 14, matinee and night.

Mr. Bedwards proved a very pleasing gentleman to meet and is doing everything possible to assist in making the engagement of his attraction in Mt. Sterling as big a success as elsewhere. As Mt. Sterling is the smallest town that the big show has played this season, yet Mr. Bedwards feels that with a strong country billing in the surrounding towns this engagement can be made a successful one, even with such a limited seating capacity that the Tabb has for their two shows, matinee and night, December 12, for a show the size of the Field Minstrels (60 people).

We earnestly hope that the people will be impressed with such a desire to see this greatest of all minstrel shows that a turn away business will greet the Field show both matinee and night.

Mt. Sterling has for some time missed many of the one night stand shows that used to play here each season, owing to the fact that the big shows playing this territory did not deem our town as a possibility to make it other than not at a financial gain. Now that Mr. Small has after three years' effort been able to book what is conceded as the biggest minstrel on the road, we sincerely hope that the engagement of the Field show will prove a financial success and that the patronage that it receives will prove that our people really want these kind of shows and assured that they are to get a really big city show will give such their patronage, thereby making return engagements in the future possible. Mr. Bedwards has promised Mr. Small that if Mt. Sterling gives the Field Minstrels a paying business here December 14 that he will try to arrange with Mr. Conrad, the owner, for a date for next season.

We feel that it is now up to the people of our city to prove whether the big shows are really a possibility or not and Mr. Small could not have booked a better show to make the test with here. For if the Al B. Field Minstrels cannot play here to paying business with the name which is a household word all over the country, we must admit that personally we think other similar bookings will be impossible.

Lloyd George has had more good luck than any other statesman of world-wide reputation during the war. But even he may tempt fate once too often.

SOUR STOMACH INDIGESTION

Thedford's Black-Draught Highly Recommended by a Tennessee Grocer for Troubles Resulting from Torpid Liver.

East Nashville, Tenn.—The efficiency of Thedford's Black-Draught, the genuine, herb, liver medicine, is vouched for by Mr. W. N. Parsons, a grocer of this city. "It is without doubt the best liver medicine, and I don't believe I could get along without it. I take it for sour stomach, headache, bad liver, indigestion, and all other troubles that are the result of a torpid liver."

"I have known and used it for years, and can and do highly recommend it to every one. I won't go to bed without it in the house. It will do all it claims to do. I can't say enough for it."

Many other men and women throughout the country have found Black-Draught just as Mr. Parsons describes—valuable in regulating the liver to its normal functions, and in cleansing the bowels of impurities.

Thedford's Black-Draught liver medicine is the original and only genuine. Accept no imitations or substitutes. Always ask for Thedford's. E. 22

NORTH CAROLINA WEED GROWERS ARE UNITED

North Carolina tobacco growers have signed up the minimum agreed upon as necessary to the success of their co-operative marketing association, according to reports received at the office of the Burley Tobacco Growers' Co-operative Association in Lexington, and at the same time news came that the price of to-

bacco had dropped considerably from previous figures.

The signing up by North Carolina was featured by the endorsement of the co-operative plan by J. M. Gallo-way, probably the largest grower of tobacco in the world, who agreed to deliver 650,000 pounds. On his farms there is grown by tenants probably a million and a quarter

pounds of tobacco.

The signing up of North Carolina assures the handling of the 1922 crop by the co-operative marketing association, which is a three-state affair, Virginia and South Carolina being leagued with North Carolina in the association.

Word from the Raleigh headquarters is that letters and telegrams coming from all parts of the tobacco section of the state are being received, asking for contracts and that speakers be sent to explain the plan to the growers who have not yet signed.

It was said in the reports received at Lexington that business men and bankers were impressed by the way farmers had shown their confidence in the new plan and were ready to give it their assistance.

The Door Slams On Happiness

Poor Blood Makes Bad Health—Then Come the "Blues"

Once the vigor of red blood becomes sapped of its strength, the door to happiness is literally slammed. Weariness of body follows and it unfailingly engenders depressed thoughts. To be reserved and cheerless becomes a habit. After a time there is an almost filmy dimness in the expression of the eyes and a pallor to the skin. Days seem dull and dark and difficult. A sense of insufferable gloom pervades the spirit.

Then it is that Gude's Pepto-Mangan is the great help. It is a red blood builder. It puts red into the blood—increases the number of corpuscles which make blood rich and red. When the blood is restored to its natural healthy state, the sensation of well-being returns. Instead of shuffling along carelessly, there is the firm and springy step, the bright lusterful eyes, the clear complexion, identified with the strength and vigor of good health. The druggist has Gude's Pepto-Mangan in both liquid and tablet form.—Advertisement.

A KENTUCKY POET

Mr. Milton K. Walker, of Richmond, has written a poem entitled "Compliments to My Old Kentucky Home," which has been highly complimented, and which The Advocate reproduces below. Mr. Walker is a man of literary ingenuity, an artist in words and discernment of thought.

Oh, land of the verdant Blue Grass!
How proud I am of thee;
How fine thy scenes are in their class,

They look so grand to me.
But not alone for they fine scenes,
I love thy land to roam,
Thou hast a dearer charm for me—
Thou art my native home.

Thy streams flow with beauty and wealth,
Yes, unequalled they be,
Thy hills and vales bloom with health,
And are so grand to see.

But not for they grand mountain scenes,
Nor for thy azure dome,
But I just naturally love thee,
My old Kentucky home.

And you have prouder glories, too,
Than nature ever gave;
Peace sheds o'er thee genial dew
And freedom's banners wave.
Charity plays a noble part,
Religion lifts its dome,
These things endear thee to my heart,
My own loved native home.

The Lord to thee great wonders gave,
Thou hast streams under ground,
A most wonderful Mammoth Cave—
And marble cliffs are found.
And the finest horses, it's true,
Will be found in thy zone,
And most lovable women, too,
Are in my native home.

You produce fine hogs and cattle,
Yes, and other things more;
Have many good mules as chattel,
And fine horses galore.
You raise fine wheat and also corn,
But not these crops alone,
For tobacco, too, looms up strong
At the Kentucky home.

May God's best gift to man be thine,
God bless thy handsome girls,
Like rare flowers they sweetly shine;
Their hearts are pure as pearls.
Yes, and grace and virtues crown them

Where'er their footsteps roam;
How can I then whilst loving them,
Not love my native home?

I have visited other climes
Beloved of tale and song;
Have stood on hills, proud and sublime,
Where nature's wonders throng;
Yes, by beautiful sunlit streams
Where honored men did roam,
But have not found a land so fair
As my Kentucky home.

Land of the Blue Grass, best of all!
Here is wishing you wealth;
Now and forever and for all
May you be blest with health.
May no dark dissensions' banners
Ever wave o'er thy loam,
But should it come, I pray the Lord
May guard my native home.

Too much peace makes folks feel
Like going to war, but it's the hardest
thing in the world returning home to
the peace they left behind them.

Strain Too Great

Hundreds of Mt. Sterling Readers Find Daily Toil a Burden

The hustle and worry of business men,
The hard work and stooping of workmen,

The woman's household cares,
Often weaken the kidneys.
Backache, headache, dizziness.
Kidney troubles, urinary troubles—
frequently follow.

A Mt. Sterling citizen tells you what to do.

George Stephens, farmer, R. F. D. No. 2, says: "As a farmer I have a lot of heavy work to do. With this and so much exposure my kidneys were put out of order and my back gave out. I was hardly able to get about the house and such a thing as work was out of the question. I had to get up every few minutes during the night to pass the secretions. I was in bad shape until I went to Duerson's Drug Store and got several boxes of Doan's Kidney Pills and began using them. This medicine soon relieved the trouble and I was cured."

ARMAMENT PARLEY WILL SUCCEED, SAYS M. BRIAND

Land at Havre, France, on his return from the Washington conference, Premier Briand, replying to a speech of welcome, declared that he had an easy task at Washington owing to the excellent arguments he had been able to put forward. It was necessary, he added, to present these arguments to the world.

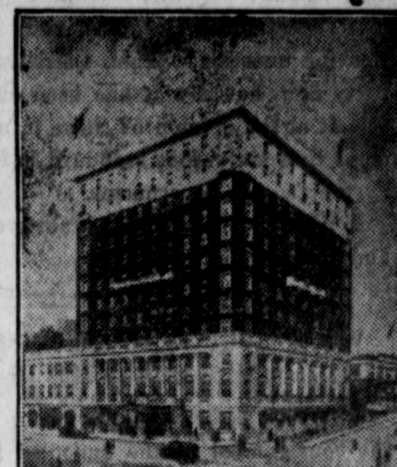

"France could not have been absent from a gathering such as that called by President Harding for the purpose of relieving the military burdens which weigh so heavily on the people and was, after such a cruel war, called for relief.

"President Harding's initiative was generous. France is never deaf to such appeals, and she answered 'present' at Washington, as she had answered at The Hague, where only the ill-will of a country that fostered evil purposes prevented unanimous acceptance of the proposals submitted on behalf of the maintenance of peace. We are satisfied that we have done everything in the past that was possible to avoid war. We are above all suspicion in this respect."

The premier declared he was firmly convinced the Washington conference would lead to good results.

WHY SIXTY FEET?

Some of our farmers who are asked to give rights of way to the Kentucky Midland road are asking why Clark county is called to give a forty-foot right of way and Montgomery county sixty feet. The answer is this: The federal government demands it and when Uncle Sam speaks that settles the question. When Clark county was asking aid the standard was forty feet, but now it has been changed and the standard is sixty feet.

It is the opinion of those in authority that all roads will be forced to come to a sixty-foot standard before they will receive the aid as specified by the federal government.

We may think a forty-foot standard sufficient, but Uncle Sam doesn't, and he controls.

IN IMPROVEMENTS

The city of Mt. Sterling has expended in the past ten years \$175,000 in improved streets and \$50,000 in sewers, and now stands pledged to pay one-third of the county's bonded debt for good roads. This is what we term enterprise. We have something to show for the money expended: good streets, health protection and all the conveniences and comforts that are for the good of the people. Of our seven miles of streets, three and one-fourth miles are either brick, concrete or asphalt.

HOME-MADE SAUSAGE

Three parts of lean meat to one of fat give good results in making sausage on the farm, animal husbandrymen at the College of Agriculture say. One recipe recommended by them for good sausage includes these ingredients for every six pounds of meat: One and one-half ounces of fine salt, one-half ounce of finely-ground black pepper and one-half ounce or less of sage to suit the taste. One-half ounce of black pepper and one-fourth ounce of red pepper may be used instead of all black pepper if a "hotter" sausage is desired. Ginger also may be substituted for the sage if desired. The meat may be rolled in the seasoning before the pork is

ground or the seasoning added after the grinding.

AMERICAN LEGION NEWS

An escaped leopard which terrorized Kansas City and Independence, Mo., was reported headed for Parsons. American Legion men of the city assembled in their clubrooms, cleaned up the old army Springfield used by the firing squad and prepared for defense of the town. It was learned then, however, that a reward of \$50 was offered for the capture of the leopard alive. The guns were stacked and a Texas ranger of the post set out to rope the animal. He is still after it.

The American Legion post of Lawler, Iowa, has completed a trade with the city authorities whereby the ex-service men act as the municipal fire department and the city in turn furnishes a clubhouse and overhead expenses for the legion men. The service men already have had several baptisms of fire.

An ex-soldier has requested the Oklahoma American Legion to canvass the country for Ollie Kendall, former doughboy of the 140th Infantry, 35th division. "He was my buddy in France. I borrowed a bunch of frames from him once. Winter is coming and he is married and has two children. I know he will need the money this winter and I want to pay him, wherever he is," the service man said.

Chauncey M. Depew shocked the American Legion of New York the other day by appearing to ask for his war service medal. He was but a namesake of the world's greatest after dinner speaker, however, and was a supply sergeant in the A. E. F.

Colorado and Texas led the lists of new posts chartered by the American Legion during the week ending November 18, according to national headquarters. Eleven posts gained during the week raised the total to 10,672. Other states to add posts were Kansas, Louisiana, Michigan, Minnesota, Mississippi, Oregon and Pennsylvania.

More applications for membership in Kansas City American Legion posts have been received since the national convention than in the preceding 12 months. The increase in the number of legionnaires in Kansas City as a result of the convention has been estimated at 2,500.

To advertise an American Legion rummage sale for unemployed soldiers, Mrs. Harry H. Hewlitt, wife of a prominent physician of Seattle, donned Charlie Chaplin raiment and paraded the streets with a sandwich board. Clothing from the rummage sale counters comprised her attire.

The town of McMinnville, Oregon, wanted to add a pulmotor to its fire-fighting equipment. When the American Legion post of the town learned that the department had been compelled to give itself as security to raise money for the apparatus, they turned over half their Armistice Day show proceeds for the purchase.

With national prohibition an accomplished fact, the W. T. C. U. has turned over to the American Legion the remainder of a war-time fund totalling \$4,000. The legion will use the money for the immediate relief of sick and wounded service men.

The United States army has been so reduced in number that when the American Legion requested a firing squad from Ross aviation field, in California, the commanding officer had to haul down a balloon to get the number of men required. The shortage of personnel is so acute that men must be taken off duty to fill such requests.

The American Legion has begun a nation-wide canvass to determine who was the last soldier killed in action. The French government will erect a monument to the last to fall. A legion post at New Haven, Conn., has put forward the name of Thomas J. Walpole, Jr., killed on the morning of Armistice Day in an outpost engagement.

More than 3,000 unemployed ex-

service men of Chicago will eat their Christmas dinner on "Lightin'" this year. With Fred Stone acting as stage manager and the veteran Frank Bacon as his assistant, the American Legion of Chicago is preparing the theatrical benefit.

Gamaliel, the 60-pound turkey for President Harding's Thanksgiving Day dinner, was sent from Crystal Springs, Miss., is a profusely decorated crate by the American Legion of that city. The whole town of

TOBACCO FARMERS!

Our Prices Averaged \$28.70

DOES IT PAY TO JOIN THE POOL?

The Farmers Tobacco Warehouse of Huntington, W. Va., opened December 1st with over 100,000 pounds of tobacco on the floor for sale. Because of blocked sale, only 54,280 pounds were sold, but THIS BROUGHT AN AVERAGE OF \$28.70 PER HUNDRED POUNDS.

HERE ARE SOME OF THE HIGH-PRICED CROPS OF THE DAY

Oliver Spurlock, Beach Fork, Lavalette, W. Va.,	\$63.75 per hundred
M. McCoy, Pliney, W. Va.	\$45.40 per hundred
E. Collins, Crown City, Ohio	\$41.20 per hundred
Lawrence Lockhart, Lavalette, W. Va.	\$40.85 per hundred
Arch Smith, Leon and Webbville, Ky.	\$39.65 per hundred

(FOR THEIR ENTIRE CROPS)

No tricks were resorted to in order to boost the average. The tobacco was sold as it ran. Had it not been for several thousand pounds of old, low, common grades, the price would have run up to \$31.52 per hundred, general average. AND THERE WAS NOT ONE REJECTION DURING THE DAY.

Practically all factory buyers were represented, and the bidding was spirited.

I advertised in October and November that my warehouse would open on December 1, that buyers were assured me and that prices would be satisfactory. I am letting the figures speak for themselves.

I have fought the pool from THE START, and my warehouse was the only one that did. I did not carry water on both shoulders, but openly announced my stand. Had it not been for my stand, this market would have been closed as they are in Kentucky.

The farmers stood by me in my opening sale. Over 85 wagons of the 100 coming to this market on the first day entered by warehouse. The shippers also stood by me in the fight to keep this market open. There was not one dissatisfied farmer on my floor.

These statements are absolutely facts, and are not stretched for advertising purposes.

Ship or bring your tobacco to my warehouse, and help fight the pool. I positively will not sell out to the pool interests as long as the farmers stand by me.

IF YOU NEED MONEY, SHIP YOUR TOBACCO TO MY WAREHOUSE AND GET YOUR MONEY THE DAY YOU SELL YOUR CROP. HUNDREDS OF OTHER FARMERS ARE DOING THIS

We will be glad to ship hogsheads if you write for them!

HEALTH EXPOSITION

The National Health Exposition, comprising the greatest collection of health exhibits from all parts of the world ever before gathered together, will be held in the Jefferson county armory, in Louisville, February 1 to 9, 1921, according to definite dates just decided on.

This exposition, which will be the fourth of its kind ever held, will be under the direction of the United States Public Health Service, the State Board of Health, the Jefferson County Board of Health and the Louisville Health Department.

Louisville has been resting serenely in the belief that its health was good; that the various kinds of diseases which each day take their toll were just in the natural order of things. Then it got a rude awakening when the report of the recent sanitary survey by the Women's City Club showed that eighty per cent of the cases of sickness were preventable and with the aid of statisticians, compiled by Dr. A. T. McCormack, secretary of the Board of Health of Kentucky, learned that at least a year should be added to the average Kentuckian's life by careful living and healthful practices.

In conjunction with the exposition the United States Public Health will hold the public health institute and the Kentucky city and county health officers will open their annual conference in Louisville at that time, as will the Kentucky Public Health Association.

With the opening of offices in the State Board of Health building, invitations are being sent to health organizations in all parts of the world to have exhibits in the Louisville exposition.

Invitations also are being sent to the Indiana State Board of Health and to organizations in neighboring states asking them to participate.

The lighter supply of poultry following the Thanksgiving holiday resulted in temporary higher prices. Indications are that there will be a very heavy movement from now until the New Year, with some reaction in selling prices.

The butter market is showing more strength, due to a slight falling off in receipts of cream and a very wide demand from consuming trade. The quality is not entirely satisfactory and more frequent marketing—at least twice a week during the winter months—would enable manufacturers to improve the quality of butter.

The supply of fresh eggs is increasing, due to the open weather, and as a result lower prices are expected.
